2010 Smarter Schools National Partnership Plan for Watarru Anangu School

PURPOSE

The Australian Government Smarter Schools National Partnerships are designed to build the capacity of South Australian schools and contribute to the achievement of the following National Education Agreement Outcomes:

1. All children are engaged in and benefiting from schooling;
2. Young people are meeting basic literacy and numeracy standards, and overall levels of literacy and numeracy achievement are improving;
3. Schooling promotes social inclusion and reduces educational disadvantage of children, especially indigenous children;
4. Australian students excel by international standards; and
5. Young people make a successful transition from school to work and further study.

To support the achievement of these outcomes, Watarru Anangu School is participating in the following Smarter Schools National Partnerships Strategies in 2010:

<tr>
<td>The Diagnostic School Review Program identifies opportunities for further improvements and acknowledges successful practice in literacy teaching and learning for school leadership and staff. The review examines evidence of practice in relation to literacy outcomes with a focus on teaching, learning, school culture, leadership and direction setting. The review report assists the school to set clear directions and set achievable targets for improvement in literacy outcomes by providing a set of literacy teaching and learning improvement recommendations. The planning that occurs as a consequence of the review results in a focussed school improvement agenda that directs the actions and practices of all staff in their work.</td>
<td>The Diagnostic Review Team leads the review process and provides a detailed report to the school. Some assistance is also provided to the school to conduct the review with follow up support provided by the Regional Leadership Consultant. They will also facilitate the sharing of successful practice across the region. The school is providing release time to work with the Diagnostic Review Team as well as dedicating professional learning time to implement any recommendations in the report.</td>
